2. Whilst it is a management responsibility to instruct all employees in safe working procedures in relation to their posts and work places, employees may from time to time find themselves in unfamiliar environments. In such cases, the employee concerned should be particularly alert for hazards, and whenever possible, ensure that they are accompanied by a person familiar with the environment or that they are advised of specific hazards.

2. Fire escape routes and exits are clearly marked for the benefit of unfamiliar users of the building, particularly during the hours of darkness;
3. Hirers of the building are briefed about the location of fire escape routes, fire alarms and firefighting equipment. Notices regarding emergency procedures should be prominently displayed;
4. Hirers using any equipment or facility provided by the school are familiar with its safe use and, if necessary, briefed accordingly;
5. Arrangements are made for checking the security and condition of the premises and equipment used after vacation of the hirer or his staff.
