HiPal – Walkie Talkie

HiPal – Walkie Talkie is a social media app and rated 12+ on the App store and for ‘Teens’ on Google Play.

When first accessing HiPal, it asks you if you are under or over 12 years of age. The area available to under 12 year olds states that no stranger interaction can take place. Users with this account type invite friends by sharing a code/QR code. As with all messaging apps, there can be instances of cyberbullying, so it is important to monitor who your child is interacting with.

If a user selects that they are over 12 years of age, then there is the risk of communication from strangers. HiPal features a public square where you can message strangers as well as an explore tab where you can view people’s images and videos from around the world. There is a risk of viewing content that is not suitable or inappropriate. There are reporting and blocking features within the app. You can find out more from Safer Schools NI here: <https://saferschoolsni.co.uk/hipal-walkie-talkie-and-wizz-social-apps/>

Instagram: new features

You must be at least 13 years old to have an Instagram account.

Instagram have introduced several new features, including 'Quiet mode,' how to hide content as well as additional tools to help your child.

Quiet mode

This gives users the ability to put their account in quiet mode, so you do not receive notifications and if you receive a DM, the sender receives an auto reply. This mode will help provide less distraction whilst studying and at nighttime.

Recommendations

You can now hide content in Explore that you do not wish to see/are not interested in. Instagram will use this information to avoid showing you that type of content in other areas where content is recommended as well.

Hidden words

You can already hide comments and DMs containing specific words, but this feature has now been expanded to recommended posts. If you add a word, emoji or hashtag that you want to avoid to your hidden words (in privacy settings) then Instagram will try to no longer recommend content with those words in the caption/ hashtag.

Updated Parental Supervision Tools

You can see your child's Instagram settings (if you have set up a supervised account), including their privacy and account settings and accounts your child has blocked. If your child updates a setting, then you will receive a notification to inform you.
